A **How to Use the Index** guide is available for using the Indexes to quickly goto pages that contain the information you seek. [Click here](#) to go to the **How to Use the Index Page** for more details.

Using the Index

In order to quickly move from the index to the page you want, simply enter the page number in the *page indicator field* located at the bottom center of your Adobe Reader window.

For example, if you wanted to go to the page that had information on the Ankeny Vineyard you would type “504” in the *page indicator field* and hit “Enter” on your keyboard. The view in your main display window would immediately change to show the page you entered in the field.
