THE ANSWERS YOU NEED

This year's edition includes five-year forecasts on a broad range of topics, making it an even better tool for spotting trends and opportunities in the fruit beverages industry and determining where to focus future resources for maximum success. Questions answered in this in-depth market report include:

- Which companies and brands in the United States experienced growth in 2024 and which did not?
- How much fruit juice is consumed per capita in the United States and how has this changed in recent years? How does this compare to fruit drink consumption?
- How did the various market segments perform in 2024, and how are they like to develop over the next five years?
- Which flavors of fruit beverages are growing the fastest? How will flavor by flavor market share trends shift over the next five years? How will fruit drink flavor trends differ from pure fruit juice trends? How will shelf stable flavor trends differ from chilled?
- Which segment of the market is expected to perform better through 2029 – juices or drinks?
- Which nations ship the most fruit juices to the U.S. and where are the leading destinations for U.S. juice?

In addition to Cranberry Juice Cocktail, Ocean Spray has introduced several other cranberry juice drinks throughout the decades, such as Cran-Cherry in the 1990s.

- Other cranberry drink blends include Cran-Apple, Cran-Grape, Cran-Raspberry and Cran-Pomegranate. In 2012, the cooperative debuted Cran-Lemonade in 64-ounce PET bottles. Cran-Mango saw its debut in 2014. In 2016 and 2018, respectively, Cran-Pineapple and Cran-Blackberry entered the portfolio. The latter, as well as Cran-Strawberry, was discontinued more than a year ago.
- Making its 2019 debut was Cran-Tropical, which mixes cranberry, mango, guava and orange. 2020 saw the introduction of Cran-Watermelon.
- In fall 2023, the cooperative introduced a limited-edition Cran-Dragon Fruit variety in 60-ounce bottles. It is still listed on its website.
- A once-promising product to come out of Ocean Spray's innovation pipeline was White Cranberry Juice Cocktail, which was first introduced on a limited basis in September 2001.
- White cranberries, according to the cooperative, are simply red cranberries picked two to three weeks earlier, before they fully ripen. They are less tart than their red counterparts and produce a milder juice, and the company's hope was that the new product would attract people who normally do not drink cranberry juice.
- White cranberry juice purportedly has the same health benefits as red cranberry juice. Because of its pale, transparent color it is attractive to mothers, according to Ocean Spray, because it will not stain clothing. While mothers have liked the product, as expected, reportedly so have bartenders that use the clear product as a mixer for Cosmopolitans and other trendy mixed drinks.
- The drink, which spent five years in various stages of development, was initially made available in three flavors: White Cranberry, White Cranberry & Strawberry and White Cranberry & Peach. All pack 100% of the daily allowance of vitamin C per serving.
- Despite providing an incremental bump in sales, white cranberry appeared to have fulfilled its potential. Subsequent augmentations to the line — Light White Cranberry, White Cranberry Wildberry and White Cranberry Premium 100% Juice Blend — did not endure.
- In 2018, Ocean Spray debuted Pink Cranberry Juice Cocktail in 64-ounce bottles. It is made from the juice of pink, white and red cranberries. The company would donate up to \$250,000 from sales of pink cranberry drinks, including a light version (which is no longer sold), to the National Breast Cancer Foundation. 2020 saw the debut of Pink Cranberry Passionfruit Juice Drink, but this was later discontinued.
