In essence, hard seltzer is a variation on the FMB theme, which in turn makes them a variety of beer. However, since they are positioned slightly differently, and perceived differently than their FMB relatives, they are treated accordingly here. Their rapid growth attracted brewers large and small to the sub-segment.

- In addition to A-B, Molson Coors, Constellation Brands, Mark Anthony Brands, Boston Beer, Diageo Beer Company USA and numerous smaller, regional beer companies developed or acquired spiked/hard seltzer brands.
- Also in early 2019, Boston, Massachusetts-based Harpoon Brewery announced it was teaming up with Worcester, Massachusetts-based Polar Beverages to release a hard seltzer line called Arctic Summer.
- Other regional beer companies, like Longmont, Colorado-headquartered Oskar Blues and Covington, Kentucky-based Braxton Brewing Company, also entered the sparkling seltzer arena in early 2019.
- Grand Haven, Michigan-based Odd Side Ales launched a 20-flavor line of hard seltzers in 2020.
- Additional new brands or line extensions continued to roll out in 2020, including some carrying major beer brand names. Molson Coors, for instance, early in the year announced plans for a summer release of Coors Seltzer, which it pushed back to the fall due to the coronavirus crisis. And then dropped it in mid-2021.
- Topo Chico Hard Seltzer arrived in 2021 via a collaboration between brand-owner Coca-Cola and beer-maker Molson Coors.
- Later in the year, PepsiCo and Boston Beer announced that they'd be launching HARD MTN DEW in 2022, thereby extending what had been another liquid refreshment beverage brand into the flavored malt beverage space.
- AriZona Beverages and Heineken did the same with a brand mostly known for its ready-to-drink iced tea.
- As brewers add flavors like lemonade to their hard seltzer rosters, it may become more difficult to distinguish between the seltzers and other FMBs.
